

## Johnson & Johnson Statement on Vacated Lee Verdict

September 16, 2024 - Attributable to Erik Haas, Worldwide Vice President of Litigation, Johnson & Johnson

“The trial judge correctly vacated the indefensible \$260 million verdict that, [as previously stated](#), was the direct result of numerous egregious errors committed by the plaintiff’s lawyers. Only through such prejudicial conduct have these lawyers secured their recent aberrant adverse jury verdicts, which have no basis in the law or science. The research, clinical evidence, and over 40 years of studies by independent medical experts around the world continue to support the safety of talc.”
